Jandy® Pro/Series

AUTOMATION

Customize automation solutions for any application. The AquaLink® family of modular components work together to provide reliable, easy to use, and easy to set up pool and spa automation.

How to use the color codes ●●●

Step 1
Select a system board. Its color code will be used to select other components.

Step 2
Select interface(s) compatible with the system board.

Step 3
Choose the power center. If a PureLink™ power center is selected, which integrates salt water chlorinator control, proceed to Step 4.
