Jandy®

The AquaLink® RS Does Everything So You Can Relax

Get more out of
your pool & spa
with a Jandy
AquaLink RS
Control System

AQUALINK RS CONTROLS The Intelligent Choice

The Jandy AquaLink RS Control System puts control of your whole backyard paradise at your fingertips. Adjust spa temperature, turn on water features, monitor chlorine generation and rest assured that the cleaner is on without ever stepping outside. There is an AquaLink RS for every application — pools, spas, pool and spa combinations, custom pools and spas with separate equipment — controlling up to thirty two different pieces of equipment or features.

CONTROL YOUR POOL AND SPA From Wherever You Are

Remote automation gives you the power to manage all pool and spa equipment, backyard lighting and more from inside your home or outside in your yard. With a variety of features, from multiple control panels to spa side remotes, from your telephone to even your PC, you can control your pool, spa and backyard amenities from anywhere! Imagine adjusting water temperature, dimming lights or turning on a waterfall while sitting in your spa with friends. Plus, you can phone your system from anywhere and activate your heater so the water is the ideal temperature when you get home. The AquaLink RS Control System makes it all possible.

BUILT-IN EQUIPMENT PROTECTION

The AquaLink RS safeguards all your pool and spa equipment. With built-in features like automatic heater cool-down, self-monitoring freeze protection, and pool cleaner safety delay, the AquaLink RS virtually eliminates any concerns about equipment protection. Plus, all AquaLink RS control systems are backed by some of the strongest and most inclusive warranties in the industry. It's the best investment you can make for your pool and spa.

The Industry Standard in Pool and Spa Automation

Start by selecting the AquaLink® RS Control System that is right for you. Jandy® controls offer more features, styles and peace of mind than other control systems. AquaLink RS monitors your water temperature, activates your water features, sets temperatures and protects your equipment so you can concentrate on relaxing! We offer a control system for virtually every pool and spa configuration and have a number of unique features designed to ensure your pool and spa experience is a pleasure.

JANDY TWO WAY INTELLIGENT COMMUNICATION

The AquaLink RS takes advantage of exclusive two-way communication with other Jandy products, offering unsurpassed feedback and control. Monitor water purification and boost chlorine production for heavy use with AquaPure®. Choose a favorite color of your pool and spa light with WaterColors. Intelligent control comes from a system that knows how to communicate.

WIRELESS CONTROL

Control your pool and spa from wherever you are with the wireless AquaLink Touch™, wireless AquaLink OneTouch™, AquaLink RS Pool Digital Assistant (PDA), or AquaPalm™ remote. The Wireless OneTouch and Touch are full featured, portable control systems with all the bells and whistles. The PDA and AquaPalm bring the power of AquaLink into the pool and spa, with their waterproof and slip free housing. The AquaPalm and PDA's rugged design can be used anywhere in your home or backyard.

JANDY'S FAMOUS ONETOUCH FEATURE

Activate multiple features with a touch on ONE button. Program your Touch or OneTouch system to set your spa temperature, switch water flow from pool to spa, turn on the spa light and start the spa jets, all with one button. With OneTouch settings like "Night Party" and "Clean All" you can imagine the power of this unique Jandy feature.

EXPERIENCE THE MOST INNOVATIVE POOL CONTROLLERS ON THE MARKET

AquaLink RS continues to deliver the leading edge in backyard equipment control with the new AquaLink® Touch™ by Jandy®. Experience AquaLink Touch's smart, intuitive user interface, customizable features and attractive styling for the best touch panel experience in the pool and spa industry today. As always, AquaLink RS brings the style and features today's consumers demand in our complete line of technologically advanced controllers.

AQUALINK® TOUCH™ Intuitive Touch Screen Pool and Spa Controller

The new AquaLink Touch brings today's sophisticated electronics plus all the features of AquaLink RS in a stylish, intuitive touch screen. No other controller combines customizable equipment control, digital picture frame features and touch screen technology in one device.

- Full color LCD touch screen with sleek, modern housing fits any decor.
- Choose from a wired, wall mount or wireless countertop models.
- Customizable "home screen" brings features you need the most up front.
- Energy savings integrated programming automates operations and routine schedules to keep energy costs down.
- Digital photo display and slideshow features let you enjoy viewing your favorite images from camera to controller.

AQUALINK® RS ALL BUTTON Indoor Control Panel

Attractively styled and simple to operate, the AquaLink RS All Button easily installs indoors. The buttons are custom labeled to match your system and backyard environment. The attractive AquaLink RS All Button brings the convenience of control into your home.

- Simple one button push with LED feedback.
- In-home control means no more running outside to check if items are left on.
- Personalized software and labeling.
- All functions fully programmable.
- Automatic equipment protection.

COMPLETE CONTROL WITH PEACE OF MIND

The real measure of a control system is not how large and complicated it is, but how compact and easy to use. Spend your time enjoying your pool and spa, not dealing with the responsibilities of maintaining it. The AquaLink RS does that work for you. With built-in features like automatic heater cool-down, self-monitoring freeze protection, and pool cleaner safety delay, the AquaLink RS virtually eliminates any concerns about equipment operation. Plus, all AquaLink RS control systems are backed by some of the strongest and most inclusive warranties in the industry. So relax and rest assured that your investment is protected and everything is set just right. The AquaLink RS has it all under control!

AQUALINK® RS PDA Wireless Remote

The Jandy Pool Digital Assistant (PDA) offers the power of a complete control system in a wireless, handheld remote. With the Jandy PDA, every pool and spa function can be performed anywhere.

- Simple one button push with LED feedback.
- In-home control means no more running outside to check if items are left on.
- Personalized software and labeling.
- All functions fully programmable.
- Automatic equipment protection.

AQUALINK® RS ONETOUCH™ Indoor or Wireless Control Panel

Designed to blend with any room decor, the OneTouch is as small as a double light switch and can be flush or surface mounted. Discover the benefits of the famous Jandy OneTouch feature; with OneTouch you can "set it and forget it" or program your backyard to come alive.

- In-home control - no more running outside to check if you turned off the spa.
- Activate multiple features with the touch of one button.
- Supports up to 32 auxiliary functions.
- Large, clear screen with Windows® style interface.

Standard Control Features

AUTOMATE FILTRATION
Keep your pool and spa sparkling clean and ready to use. Automatic and efficient filtration cycles allow you more time to relax.

POOL & SPA CONTROL
Switch from pool to spa with a touch of a button or automatically at a set time. Pool and spa features at your command.

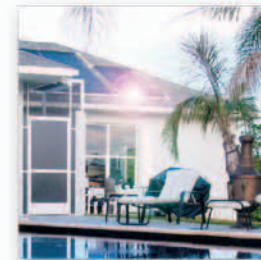

SPILLOVER & WATER FEATURE CONTROL
Set your water features to perform at your command. With one touch, your backyard will come alive with relaxing sounds.

POOL & SPA LIGHTING
Create a mood or just brighten the backyard for an evening swim. Pool and spa light control is effortless and fully customizable from within your home.

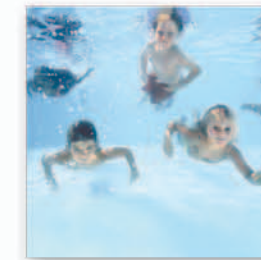

LANDSCAPE LIGHTING
Brighten beyond the pool. Dim pathway lights, thresholds, safety lights and more at different times, at dusk, or all at once.

SOLAR
Control your solar heating with the AquaLink RS system and realize the cost savings that comes with alternative energy.

BUILT IN SAFETY FEATURES
Automatic freeze protection, heater cool down and system lockout modes help keep valuable equipment running smoothly.

AUTOMATIC PURIFICATION
Control filtration cycles and interface to your Jandy AquaPure salt chlorine generator for clean and clear water at all times.

SPA SIDE REMOTES
Stay in the spa and adjust spa temperature or turn on lights. Jandy's spa side controls fully integrate with any AquaLink RS.

CONTROL FROM ANY PHONE
With TeleLink and a touch tone phone, you can call your AquaLink RS at any time to control your backyard features.

COMPUTER CONTROL
Set-up programs, boost the heat in the spa and check the temperature from your personal computer.

WHOLE HOME AUTOMATION
Integrate the AquaLink RS with your current home automation systems for both indoor and outdoor enjoyment.
