

HAYWARD®
COMMERCIAL AQUATICS

HCP 3000 Series

3" CLASS SINGLE- AND 3-PHASE PUMPS
2-7 HP

HARNESS
THE POWER.

HCP 3000 Series pumps offer
best-in-class efficiency and versatility
for a wide range of pools.

HCP 3000 Series pumps are raising the bar for commercial pump capabilities, setting a new flow rate standard for the 3" union class. With a wide selection of power options available in single- and 3-phase specification, as well as a variable-speed model, they're the most efficient solution for a variety of pools.

UNPARALLELED PERFORMANCE

HCP 3000 Series pumps are the first 3" pumps to achieve hydraulic performance of more than 250 gallons per minute at 60' of head (7 HP model), saving more energy than any comparable pump on the market.

LONGER LIFE AND LOWER MAINTENANCE

TEFC motors in all models, in addition to a chemical-resistant Viton seal, ensure less wear-and-tear and minimize potential down time. Oversized strainer baskets reduce daily cleaning and maintenance.

SIMPLE, VERSATILE INSTALLATION

The wide variety of power options and the detachable, modular strainer basket enable HCP 3000 Series pumps to deliver unmatched versatility, allowing for simple drop-in installation in virtually any pool application.

Modular (removable) strainer basket

Totally enclosed fan-cooled (TEFC)
motor in all models

Chemical-resistant Viton® seal

2.5" x 3" inlet and outlet unions

3" ANSI Standard
flanged connection
allows strainer
basket to be
removed and
mounted remotely

Digital control interface
can be rotated on the
pump or detached and
wall-mounted for
convenient access and
viewing. *[VS model only]*
